

Suzuki Violin Lessons with Isla Ratcliff

Every child can learn to play the violin.

Just as every child can learn to speak English.

The Suzuki Method teaches a child how to play an instrument using the two components that are vital to language learning: **listening** and **praise**.

Child, parent and teacher work together in a kind, caring and non-competitive environment. Your child will learn to play the violin to a high standard. But perhaps most importantly, they will develop confidence, learn essential social skills, and enjoy spending quality time with you.
